

BIO-RELO S

Release Oil Summer

BIO-RELO S is used to prevent sticky or moist materials from sticking to surfaces. The product enables easy unloading of problematic materials.

- For trucks (loading bays), steel containers, excavator scoops etc.
- For transportation of soil, clay, rubble, and waste materials (including food waste).
- The effect can last up to 6 loading cycles depending on loaded material
- Unproblematic in incineration/energy recycling, composting, and digestion to biogas

Use

BIO-RELO S is applied in an even thin layer using a low pressure compressed air sprayer on a surface as clean as possible. Usable down to a temperature of -5°C.

Technical data

Kinematic viscosity

°C	mm ² /s
+ 20	12
+ 40	8

Flashpoint	> 100°C
Biodegradability	> 90%*
Biocarbon content	> 97%**

Environment and Safety

The product is not hazardous to the environment, see safety data sheet (SDS) for more information on handling and safety. Fully REACH-compliant and not classified as dangerous goods.

Packaging

5 liter jerry can, 25 liter jerry can, 208 liter barrel, 1000 liter IBC

CN-number 3403 99 00 00

* After 28 days according to OECD 301 B (readily biodegradable)

** ASTM D6866
