

# BIO-CERO

## Cement Remover

### Cement/Concrete Remover

**BIO-CERO** is a unique bio-based detergent for removal of concrete stains and spills from forms, vehicles, tools and other equipment. The product is also suitable for cleaning of construction scaffolding. The product adheres well to surfaces which prolongs the cleaning effect compared to similar products.

- Removes hardened concrete/cement and render.
- Also removes limescale and rust
- Fully REACH-compliant and not classified as corrosive according to EU-regulation 1272/2008 (CLP) despite the very low pH
- Not classified as dangerous goods
- Bio-based & biodegradable (contains lactic acid)

#### Use

BIO-CERO can be applied with a low pressure compressed air sprayer or poured/painted onto the surface. Let the product work for 15-90 min and wash off with clean water using a pressure washer. Avoid drying out of the product while it is working by spraying with water or by adding more product. For thicker deposits it may be necessary to repeat the process.

For use in dipping baths the product can be diluted 1:2 with water.

pH (undiluted): 1.9

#### Storage

The product should be stored at temperatures above 0°C.

#### Environment & Safety

Because the product contains a relatively strong acid protective gear should be worn (gloves & goggles). See MSDS for full information on safety.

The product is accepted by Byggarubedömningen (Swedish construction materials assessment body).

#### Product Composition

Developed and manufactured by Biobase Sweden AB from renewable raw materials. Bio-based product according to EN 16575:2014.

#### Packaging

5L, 25L, 208L Drum, 1000L IBC

CN-number 3402 90 90
